Well-Child Policy of Lynwood Baptist Church

Although we take every precaution in our Preschool area to reduce the spread of germs and illnesses, we need your help to maintain a healthy environment. If your child displays any of the following symptoms or illnesses, we ask that they be kept at home. It is our goal to work with parents to provide the safest atmosphere for our Preschoolers.

- *Fever (99.5° or higher) within the last 24 hours
- *Vomiting or diarrhea within the last 24 hours
- *Contagious disease: Measles, Chicken Pox, Scarlet Fever, Mumps, etc.
-(Please notify the Preschool Department if any of these instances occur.)
- *Common cold with discolored nasal drainage. If drainage is not CLEAR, they should not be brought
- *Sore throat
- *Croup
- *Any unexplained rash
- *Skin infections (ringworm, boils, impetigo)
- *Conjunctivitis (pink eye) or other contagious eye conditions
- *Detections of head lice (child must be nit free)

*Any child who displays any of the above symptoms will be removed from the classroom with parent contacted immediately.

Medications

Medications will not be administered by Preschool leaders except in the case of diaper rash ointments, which require a parental consent request form.

Please feel free to contact the Director of Preschool Ministries with any questions.
